Seems ok with me, but defer to OGC.

Thanks Carissa

Hi Cathryn and Carissa,
I'm looping Virna Stillwaugh into the conversation. She is acting BC for Jenn today. I think the change in red below is fine, but defer the final decision to Virna.
Thanks,
Beth

Hi Carissa – that edit is ok with me, but I'm also looping RD in too, since that section really pertains to the review of the 6a2 information being coordinated by RD.

I believe Jenn and Jackie are out, so I've copied Beth and Jamey, who I believe are acting. Beth/Jamie – if you have any concerns or questions, please let Carissa know. I believe Marietta has already reviewed this.

Thanks,
Cathryn

Subject: FOR REVIEW OPP IO comment on OPP Update CBD's Seresto comms material
Importance: High

Hello,

Jan who is acting for Mike while he is acting for Ed, had a comment on the listserv about posting the summary or the analysis itself. Do you know what we will post? Are you ok with the revised paragraph below (new text in red)?

Having received the requested data, EPA is currently in the process of analysis, possibly to include collaborating with experts from other regulatory authorities, such as the U.S. Food and Drug Administration. Once completed, the agency will make available the final analysis. EPA will take appropriate action, if appropriate after the evaluation of the incidents is complete.

Just an FYI, I am working on the updating the other web pages that have been flagged.

Subject: RE: OPP IO review: OPP Update and Web for CBD's Seresto comms material [Michal has singed this today]

Thank you very much Jan. We will address the comments of the OPP Update.

For the other webpages we definitely agree. Those are the same extra pages I mentioned this morning at the OPP Staff meeting that we are looking at in addition to the main related webpage. Your suggestions are exactly what we are addressing now and the web team should have mock up ready for them shortly.

Subject: RE: OPP IO review: OPP Update and Web for CBD's Seresto comms material [Michal has singed this today]

I provided a couple of comments directly to the draft OPP update. Since this is such a hot topic, it would probably be a good idea to send a final clean version of the **OPP update** for Mike's quick approval when ready.

I hadn't previously looked at the web page(s) related to this and am not sure to what extent we are updating them. Regarding the draft web page, the first link is to the following page: Controlling Fleas and Ticks on Your Pet. I will note at the bottom of the page, we give instructions if the pet has an adverse reaction as follows: "If your pet experiences an adverse reaction, immediately bathe the pet with mild soap and rinse with large amounts of water." Seems like we should also include that if the reaction is to a collar, the collar should also be removed immediately (consistent with the OPP update). Similarly there is another page titled "What to Do if Your Pet has an Adverse Reaction to a Flea and Tick Product." Same comment is applicable to that page as well.

(b) (5) Internal Deliberative

Last, there is a page titled: "Use of Standardized Templates to Report Pet Spot-on Incidents: Conclusion of Pilot and Implementation Strategy." It appears outdated to me and it's unclear if Seresto would be subject to additional reporting requirements as described.

I hope this is helpful.

Jan
